

PUT YOUR EYES IN THE BEST OF HANDS.

When it comes to your eyes, hindsight isn't always 20/20. So rather than go into a LASIK procedure sight unseen, see the best. Bascom Palmer. After all, as a University of Miami teaching hospital, Bascom Palmer has trained top ophthalmologists for over forty years. In fact, Bascom Palmer pioneered many of the laser techniques being used today. We offer a complete spectrum of correction procedures, everything from LASIK and PRK to Conductive Keratoplasty (CK). No wonder we're ranked among the best in the nation by U.S. News & World Report. For a no-obligation evaluation, call 1-877-GO-LASIK. Because while you could go elsewhere for LASIK, the reasons for calling Bascom Palmer have never been more clear.
